

# On Christ The Solid Rock

**D**                      **A2**  
 My hope is built on nothing less  
       **D/F#**                      **G**  
 Than Jesus' blood and righteousness  
**D**                      **A2**  
 I dare not trust the sweetest frame  
       **D/F#**                      **G**  
 But wholly lean on Jesus' name

**D**                      **A2**  
 When darkness veils His lovely face  
       **D/F#**                      **G**  
 I rest on His unchanging grace  
**D**                      **A2**  
 In every high and stormy gale  
       **D/F#**                      **G**  
 My anchor holds within the veil

**D**                      **A2**  
 On Christ the solid rock I stand  
       **D/F#**                      **G**  
 All other ground is sinking sand  
**D**                      **A2**  
 All other ground is sinking sand  
       **D/F#**                      **G**                      **D** **A2** **D/F#** **G**  
 On Christ the solid rock I stand

**D**                      **A2**  
 His oath, His covenant, His blood  
       **D/F#**                      **G**  
 Supports me in the 'whelming flood  
**D**                      **A2**  
 When all around my soul gives way  
       **D/F#**                      **G**  
 He then is all my hope and stay

**D**                      **A2**  
 When He shall come with trumpet sound  
       **D/F#**                      **G**  
 Oh, may I then in Him be found  
**D**                      **A2**  
 Dressed in His righteousness alone  
       **D/F#**                      **G**  
 Faultless to stand before the throne

## Chords used in this song:
